# Backdrop

With a history over 50 years of design and manufacture, KAB have the credentials to provide the best seating, from concept to manufacture in our UK plant, we possess the tools and skills to supply the ultimate seating product.

We *understand* seating..... design, manufacture, quality and ultimately, comfort..... the features customers' desire in their work environment in order to be efficient and productive.

*Office Seating has come a long way!*

# Office Seating

KAB Seating, part of the CVG Group, with a Global manufacturing footprint, is one of the largest producers of vehicle seats for the toughest markets, environments and applications. Trucking, agriculture and construction all require seats with comfort and durability for extensive periods of time for the User.

These characteristics are at the core of the KAB Office Range, providing the highest level of comfort centric to the criteria laid out by workplace safety bodies. Essential to office and 24/7 environments is posture control, avoiding back pain and stiffness caused by poorly designed and constructed seats.

Providing numerous design features for User's across many business functions, there will be a KAB seat ideal for you and your workforce.

This publication will provide you with the background to make an informed choice of the right KAB seat for your application.....

# Sustainability

CVG have developed a comprehensive user guide designed to educate end User's on the recyclability of the component parts that make up our seats.

<https://www.kabseating.com/contentfiles/downloads/Recyclability%20Leaflet1.pdf>

**Office Seating | Materials Recyclability**

**Recycling Codes | Modules**

<b>Headrest Assy</b>	Support Midg	Polypropylene	
	Support Rod	Steel	
	PU Foam	Polyurethane	
	Trim (Leather)	Leather	
	Trim (Fabric)	Polyester	
	<b>Armrest Assy</b>	Topper Pad	Self-skin PU
Lwr Housing		Nylon GF30	
Mechanism		Steel	

**Recycling Codes | Modules**

<b>Upper Assy</b>	Seat Frame	Steel	
	Seat/Cushion	Polyurethane	
	Handles	Polypropylene	
	Lumbar Assy	Mechanism	
	Trim (Leather)	Leather	
Trim (Fabric)	Polyester		

**End of Life | Disassembly**

**KAB Seating Office Seats are designed & assembled according to CVG Environmental Policy & also with consideration to End-of-Life material handling**

Our seats offer many years of continuous service & are backed up with service spares support. If eventually a seat comes to an end of its working life, disassembly into the sub-modules (and disassembly of these modules) allows constituent materials to be divided and transferred for recycle.

Materials are non-hazardous and comply with all mandatory regulations, mechanical fixings ease disassembly and the creation of the next working life of these materials
